Education

School of Engineering and Management Vaud - HEIG-VD, Yverdon-les-Bains Bachelor of Science HES-SO in Computer Science, major in Software Engineering <i>Bachelor's Thesis</i> VS Code extension for the UON Language, Rating : 5.5 / 6	Sep. 2017 - Sept. 2022
ETML, Lausanne Computer Scientist CFC • Technical Maturity	Aug. 2013 - Jul. 2017

Experience

HEIG-VD - Group projects	
• <i>Journeys</i> Web application made for trips creation. It's built using Spring Boot, React, Neo4j. The app is tested, built, dockerized and deployed on GCP through a pipeline. The project was made with an agile and CI/CD approach.	Sept. 2021 - Jan. 2022
• <i>Stack</i> Question-and-answer site. It's built using the MVC pattern on the server side with Java EE APIs and runs on Open Liberty server on a Dockerised environment.	Sept. 2020 - Jan. 2021
• <i>EasyToolz</i> Web application for sharing unused objects. It's built using Spring boot, React and MySQL.	Feb. 2019 - July. 2020
Personal projects	
• <i>Vareddit</i> Web application for publishing and commenting posts. It's built using Vue, Typescript, GraphQL, URQL, Node.js, PostgreSQL and MikroORM.	Dec. 2022 - now
• <i>Songify</i> Web application for listening popular songs of the moment. It's built using Vue and the SoundCloud API.	Nov. 2022 - Dec. 2022
ENAC-IT EPFL Employed 1 year during my CFC of computer scientist.	Feb. 2016 - Jan. 2017
• Developed a web application in Vue and Node.js for the management of sensors • Provided technical support for the students, professors, and collaborators.	

Skills

Languages	Java • C++ • JavaScript • TypeScript • C# • Python • Scala • HTML5 • CSS3 • PHP • Kotlin
Frontend	React • Redux • Vue.js • Vuex
Backend	Express.js • Spring Boot • Maven • GraphQL
Database	MySQL • PostgreSQL • MongoDB • Neo4j
Mobile	Android
Cloud	AWS • GCP • Heroku • DigitalOcean
Devops	Git • Docker • CI/CD • Github pipeline

Languages

French	Native Language
English	B2
